github.com/anshul1606

Technology-Driven software developer skilled in Java, Html, Css, JavaScript and strong foundation in computer science fundamentals. Seeking a position as a Software Developer to utilize my proficiency in programming languages to enhance the organization's productivity and efficiency.

Skills

Programming Languages: Java, C, HTML, CSS, Javascript

Databases: MySql

Data Structure and Algorithm

Projects

User Admin Hub Web Application– JSP, Servlet, SQL July 2024 – Aug 2024

- Developed a user admin management web application using JSP, Servlet, and SQL to manage user registration, authentication, and role-based access control, ensuring secure user management and data handling.
- Designed and implemented an admin panel that enables CRUD operations for user accounts and roles, improving usability and providing administrators with comprehensive control over user data and permissions.
- Optimized performance and security by implementing SQL query optimization, input validation, and secure password handling using hashing techniques, following MVC architecture for maintainability and scalability.

Travel Booking Hub– HTML CSS and JavaScript 2025

- Developed a travel booking website with clean UI using HTML, CSS, Bootstrap, and JavaScript.
- Created sections for tour packages, destinations, and contact details with smooth navigation.
- Designed reusable components and layouts to present travel information attractively

Disease Detection and Identification in Millets using ML Techniques – AI: CNN 2024 – 2025
and Transfer Learning

- Developing a CNN-based model for detecting diseases in millet crops, achieving [96]% accuracy
- Implementing image processing techniques to enhance disease classification from real-time crop images.
- Promoted sustainable agriculture by enabling early disease detection and reducing pesticide reliance.

Education

ABES Institute of Technology, Bachelor's of Technology in Computer Science October 2021 – May 2025

- **Coursework:** Artificial Intelligence, Data Structures And Algorithms
- **CGPA:** 7.7/10

CSHP Public School, Senior Secondary Education April 2020 – May 2021

- **Coursework:** PCM
- **Percentage:** 80.2

CSHP Public School, Higher Secondary Education April 2018 – May 2019

- **Percentage:** 87

Certification

Internship Certificate on Web Development

github.com/anshul1606/UserAdmin-Hub-Web-Application-

- Developed a user admin management web application using JSP, Servlet, and SQL to manage user registration, authentication, and role-based access control, ensuring secure user management and data handling.
- Tools Used: JSP, Servlet, SQL

Certification of Internship in Java

DUCAT Noida

- Covers Java fundamentals, syntax, object-oriented programming, control statements, exception handling, I/O operations, and basic GUI programming, culminating in a final project to apply learned concepts.
